November, 1983

Incorporated 1906

No. 70

Dear Cousins:

Thank you for the privilege of becoming your twenty-fourth president. The many recent improvements honoring or associated with the memory of Roger Williams—Roger Williams Park, Betsy Williams Cottage, Roger Williams National Park—have greatly enhanced the position of our Association. And with the 350th Anniversary of the founding of Providence coming in 1986 and the Family Association's 100th Anniversary due in 1988, I am looking forward to an exciting future for our Association.

Also, the new computers offer tempting possibilities for recording and researching our genealogical data. Pilot programs have been undertaken by Carolyn Platt and Bob Steere this past year to determine the system to be used, the time and effort required, and, generally, how the computer might best serve the purposes of our Association. Further involvement with computerization will be determined by these efforts and hopefully contribute to the updating and republishing of our genealogy in 1988.

Memberships, especially life memberships, have continued to increase this past year. There appears to be a strong resurgence of interest by families into their roots. This has greatly strengthened us numerically, but at the same time has burdened our registrar, treasurer, and secretaries with recording, mailing, and updating information. The time has come to consider an initiation fee to cover these first costs which may soon include entering the data on a computer.

Roger Williams National Park is very nearly complete. Mr. Larry Nash, resident park ranger, has invited the Association to use the building as both a meeting place and as a repository for records and memorabilia. He also would like to have us participate as a trustee in the use of monies available to the Park from the Gilmore Fund. I hope all will take the opportunity of our August 8, 1984 meeting at the National Park to see, first hand, this fine improvement to the spring area and give direction to its continuing development.

Please keep information about marriages, births, and deaths coming to our registrar so that our records can be as accurate and up-to-date as possible. Whenever you know of a Family member who is ill or who has suffered a loss, please call Katherine Hazard, our Sunshine Chairman, so that she may communicate the encouragement of your Association.

This past year our Family lost Mrs. Charles W. Anthony, Registrar Emerita. She served the Association devotedly for half a century, including several years as President in 1943-45. We all will miss her presence and her knowledge. Note the reprinting of her contribution on Roger Williams' Monument in this year's Programme.

I solicit your ideas for improving our Family Association in the coming year and I look forward to meeting with you personally at our gatherings throughout the year. Please take a moment now to jot down the dates and times of each meeting on your personal calendar.

Sincerely,  
Stephen A. Greene, Jr., President

## ROGER WILLIAMS MONUMENT ON PROSPECT TERRACE

Roger Williams died in the spring of 1683 and his remains interred in a spot which he had himself selected, on his own land, a short distance from the "spring" where 47 years before he had landed with his five companions, and founded Providence. Not even a rough stone was set up to designate the spot.

On July 15, 1771, 88 years after his death, the Freemen of Providence, in Town Meeting, appointed a committee to draft an inscription for a monument, which it was then voted to erect "over the grave of the Founder of this town and colony." The population at that date scarcely exceeded 4,000 souls and nothing was probably contemplated save a simple memorial to mark the western slope of Prospect Hill. The swift march of events, the burning of the Gaspee, the quarrel with the mother country and the great Revolutionary struggle, hindered the project, and no monument was erected.

The matter seemed forgotten for nearly a century. Then about 1850 it was taken up under the auspices of the "Providence Association of Mechanics and Manufacturers" and a course of ten lectures was given to the public, gratuitously by ten men, the proceeds going toward the monument of Roger Williams. This together with solicited subscriptions was deposited in the Providence Institution for Savings. The first deposit of \$100 was made in 1850. This account reached \$707.53 in May 1866.

On April 26, 1860 Stephen Randall, Esq. called a meeting to which nearly 200 persons came. A month previous, in the presence of several witnesses and with the assistance of two experienced superintendents of public burial grounds, he had caused to be exhumed from the neglected resting place, Williams' "dust and ashes" and placed in an urn in his own tomb in the North Burial Ground. Randall brought the matter before the assemblage, a committee of fifteen appointed, and an act of incorporation under the name of "Roger Williams Monument Association" was signed by 80 of the most prominent and influential citizens of the City and State.

This committee selected a site on Prospect Hill as Roger Williams' final burial place, a height of 200 feet above tide water. As evidence of the conspicuousness of the summit, the committee referred to the historical fact that during the Revolution a beacon fire was kindled thereon at the top of a mast which was seen by the inhabitants of Cambridge, Mass. and of New London, Conn. This circumstance rendered the supposition reasonable, that the top of the monumental shaft, nearly two hundred feet high, might be visible from the top of Bunker Hill monument, which is 220 feet high. In that case, the worthy descendants of the Puritans might there behold the Roger Williams monument, raised on high as an emblem of the triumph of religious freedom. The committee recommended a shaft of granite, in the form of a Grecian column, with a space within the base for statuary, sculptures and historical inscriptions, estimated to cost from \$60,000 to \$70,000. However, no plans submitted were approved and no progress made in subsequent annual meetings which were recorded only until 1865, when Mr. Stephen Randall, despairing of any action on the part of the Association, deposited in the Peoples Savings Bank January 5, 1865 \$1,000 for the purpose of the monument. This, together with various other

gifts and accumulated interest, amounted in January 1886 to \$1,635.27. Mr. Randall died in 1874. The total of amounts in three Providence banks in January 1886 amounted to \$6,695.91. The matter lay dormant for fifty years.

In 1886, the 300th Anniversary of the settlement of Providence a new Roger Williams Monument Association was formed, including high officials of the state and patriotic societies for the purpose of erecting the monument. In 1888 the Superior Court issued an order turning over savings accounts of the Association. These amounted to approximately \$45,000. The State of Rhode Island and Providence Plantations gave \$21,000 and a contribution of \$19,000 from the Tercentenary Committee, and plans were ready to be put into operation.

The result of the work of this committee developed in the construction of a 14 foot statue of Roger Williams weighing ten tons, hewn from fine Rhode Island blue white granite. It was set between two huge granite pylons, forming the sides of a rectangular arch. Two bronze boxes, one containing the remains of Roger Williams and the other the records of the Association were placed within the monument. Standing on Prospect Terrace, high above the City of Providence, overlooking same, the monument was dedicated June 29, 1939 to the man who advocated and practiced the doctrines of the right of religious liberty in its widest meaning and stands in its majesty, solidity and permanence an everlasting tribute to the Founder of Rhode Island, keeping eternal vigilance over the City and State he founded in 1636, more than three centuries ago.
